# -10°C ~-25°C Biomedical Freezer

Stable Performance • High Quality

DW-YW226A / DW-YW358A / DW-YW508A

❄ Refrigeration System
· The environmentally friendly Freon-free refrigerant and high-efficiency enclosed compressor supplied by a famous brand can ensure energy saving and low noise.
· The condenser installed on the bottom ensures temperature stability and system reliability.

🌡 Temperature Control System
· The high-precision computerized temperature control system ensures an adjustable temperature within a range from -10 to -25°C inside the cabinet.

🔑 Security System
· The well-developed audible & visual alarm system (sensor failure alarm, high temperature/low temperature alarm, etc.) makes it safer for storage;
· The turn-on delay and stopping interval protection function can ensure reliability in running.

👥 Human-oriented Design
The airbag-type built-in door gasket is dustproof and easy to clean.

DW-YW226A   DW-YW358A   DW-YW508A

Temperature Control System

· The digital temperature display can indicate operating status clearly;
· The high-precision microcomputer temperature control system enables users to set the temperature inside the cabinet within a range from -10°C to -25°C.

Refrigeration System

The environmentally friendly Freon-free refrigerant and high-efficiency enclosed compressor supplied by a famous brand can ensure energy saving and low noise. The condenser installed on the bottom ensures temperature stability and system reliability;
The CFC-free polyurethane foam technology and the thicker insulating layer can improve the effect of thermal insulation.

Security System

· The well-developed audible & visual alarm system makes it safer for storage;
· The turn-on delay and stopping interval protection function can ensure reliability in running;

Human-oriented

· The design of upward door opening and the balancing door hinge facilitate door opening;
· The built-in shelves are convenient for placement of things.

(DW-YW358A)

✓ Scope of Application

Suitable for freezing of ice bars and storage of various things needing refrigerated storage such as blood plasma, reagent, etc. Suitable for use in hospitals, clinics, health and disease prevention systems, blood banks, laboratories in colleges & universities, the frozen food industry and catering industry, etc.
